About us

The University is located in the town of Győr, in the northwest part of Hungary, close to the Slovakian, and Austrian border. The city is within 150 km distance from three capital cities, Budapest, Bratislava, and Vienna.

More information about Hungary can be found here!

There are nine faculties and institutions within the university. The Civil Engineering program is in the Faculty of Architecture, Civil engineering and Transport Sciences.

There are two departments in the civil engineering area;

- Structural and Geotechnical
- Department of Transport Infrastructure

Academic Tracks

The two departments offer bachelor, master and doctoral programs in the following academic tracks Bachelor of Science (B.Sc.) in Civil Engineering (hungarian)

- Structural Engineering
- Transportation Engineering

Master of Science (M.Sc.) in Civil Engineering (hungarian-english)

- Geotechnical Engineering
- Transport Infrastructure Engineering
- Transport Infrastructure-Geotechnical Engineering

Doctor of Philosophy (Ph.D.) in Civil Engineering (hungarian-english)
