About us

The University is located in the town of Győr, in the northwest part of Hungary, close to the slovakian, and austrian border. The city is within 150 km distance from three capitol cities, Budapest, Bratislava, and Vienna.

More information about Hungary can be found here!

There are nine faculties in the university. The Civil Engineering program is in the Faculty of Architecture, Civil Engineering and Transport Sciences.

There are two departments in the civil engineering area;

- Structural and Geotechnical
- Department of Transport Infrastructure and Water Resources Engineering

Academic Tracks

The two departments offer bachelor, master and doctoral programs in the following academic tracks

Bachelor of Science (B.Sc.) in Civil Engineering (English or Hungarian)

- Structural Engineering
- Transportation Engineering

Master of Science (M.Sc.) in Civil Engineering (English or Hungarian)

- Geotechnical Engineering
- Transport Infrastructure Engineering
- Transport Infrastructure-Geotechnical Engineering
- Water Resources Engineering

Doctor of Philosophy (Ph.D.) in Civil Engineering (English or Hungarian)
